

ABclonal Germany GmbH – Your European Partner in Global Life Sciences Innovation

ABclonal is an innovative growth company aiming to provide reliable and cost-effective products and services for both basic and translational research in cutting edge biomedical science. Innovation is our DNA, with worldwide R&D centres focusing on technical innovation and product development for protein science and molecular biology.

ABclonal Germany GmbH, a strategic branch of **ABclonal Technology Co., Ltd.**, embodies the global vision and scientific excellence of its parent company while delivering localized expertise to researchers, biotech companies, and healthcare institutions across Europe. As part of ABclonal's international network—supported by R&D, production, and commercial hubs spanning North America, Asia, and Europe—we are committed to advancing life sciences innovation worldwide.

Our Milestones:

1. Antibody Production Services

ABclonal was founded with a strong focus on providing customized antibody production services. Our mission has always been to enhance life science research by delivering better, high-quality antibodies.

2. Every Protein Should Have an Antibody

We launched the Human Genome Antibody Project, aiming to document and generate an antibody for every protein encoded in the human genome. By utilizing recombinant protein antigens, we have successfully developed over 20,000 rabbit polyclonal and monoclonal antibodies.

3. Next-Generation Sequencing (NGS)

Leveraging the expertise of our molecular biologists and geneticists, we are developing cutting-edge NGS technology. Our goal is to produce innovative NGS library preparation kits while integrating advanced bioinformatics platforms. This will accelerate biomedical research and aid in the discovery of biomarkers for genetic and epigenetic diseases.

Our Mission:

To become a global leader in biomolecular solutions.

Our Values:

1. Customers Come First – We prioritize our customers' needs and success.
2. Collaboration Over Individualism – We believe in teamwork and shared achievements.
3. Clarity & Transparency – Honesty and openness drive our innovation.
4. Embracing Challenges – We see obstacles as opportunities for growth.
