WELCOME NOTE

Dear colleagues and friends,

It is our great pleasure to cordially invite you to the 9th German Pharm-Tox Summit, which will be held from March 13–15, 2024 in Munich, Germany. After having this conference for two years as on-line-meeting, this is the second year in a row to meet again in person and see our colleagues and friends!

The GPTS is organized by the German Society for Experimental and Clinical Pharmacology and Toxicology (DGPT) together with the Austrian Society of Toxicology (ASTOX), the Austrian Pharmacological Society (APHAR) and the Association for Applied Human Pharmacology (AGAH). The scientific committee is confident that the program with three plenary talks, various symposia including one by the Paul-Martini-Foundation, many short talk and poster sessions will provide exciting insights into cutting edge topics of experimental and clinical pharmacology and toxicology, and foster scientific interactions and collaborations across the borders of our disciplines.

Munich with its two universities, LMU Munich and TUM, has become one of the hotspots of life science and medical research in Europe and beyond. The conference venue, the LMU high-tech campus Großhadern, hosts the LMU University Hospital and the LMU life science campus, and is in close vicinity to two life science Max Planck Institutes and the BioM Biotech Cluster in Martinsried.

We are looking forward to meeting you in Munich for a stimulating Pharm-Tox Summit!
